About the Carre 80

This 3D profile was designed especially for placing double-sided textile prints in L, U and O configurations. Create eye-catching partitions with the Carre 80 profile.

The advantages

- ✔ Various rectangular configurations
- ✔ For freestanding and suspended use
- ✔ Seamless connection in the corners
- ✔ Fabric on both the inside and outside

**Carre 80** 3D textile frame
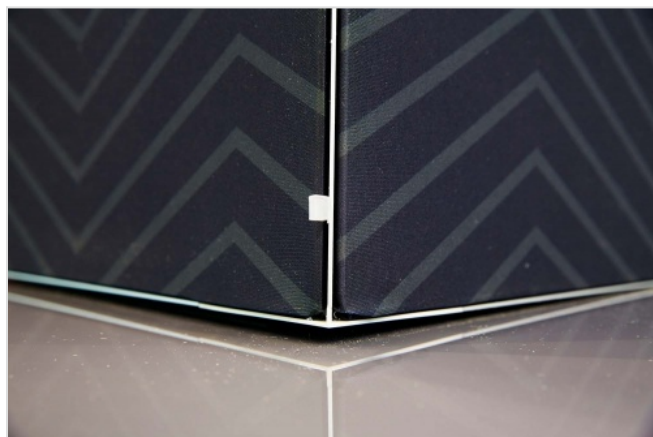

Mounting

Freestanding

Freestanding frame with a textile on both sides.

Attached to the ceiling

Frames suspended from the ceiling. Both horizintal as well as vertical suspension is possible.

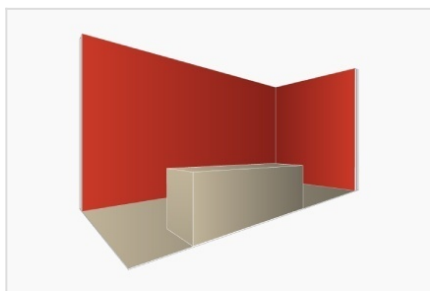

Finish

Open

The outer groove facilitates the usage of accessories.

Closed

An even finish. If desired, holes can be drilled in the profile so that accessories can be attached.

Possible configuration

L-configuration
A basic setup for freestanding exhibition stands and partitions.

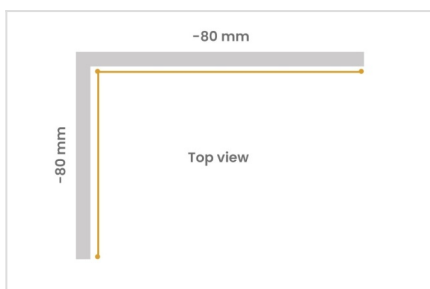

U-configuration
A more elaborate setup for freestanding exhibition stands and partitions.

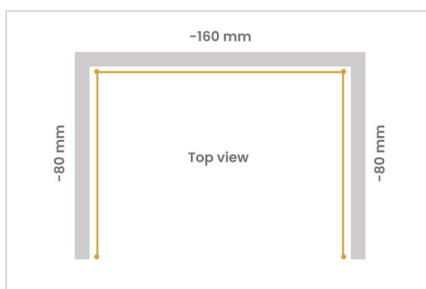

O-configuration
A complete stand-alone setup to use as storage space or as a separate meeting room on the exhibition floor.
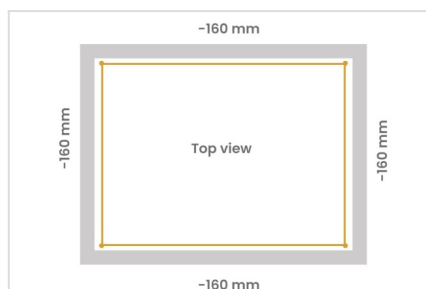

Correcting the fabric

L-configuration
A correction of -80 mm on the width of the fabric (in relation to the outer size of the frame).

U-configuration
A correction of -80 mm on the width of the fabric at both ends and -160 mm on the width of the inner fabric (in relation to the outer size of the frame).

O-configuration
A correction of -160 mm on the width of the fabric (in relation to the outer size of the frame).

Stabilizers

Stabilizers
In order to guarantee the stability of the frame, stabilizers must be placed in the frame. This way the construction is sturdy.
